U+EBC6	ϣ	<p>BERINGIN AFFIX PER</p> <ul style="list-style-type: none"> - This letter is used for the prefix: per- - This letter is used as part of the prefix: member- (combine with Beringin Affix Men) - This letter is used as the opening of the circumfix: per-...-an, per-...-kan, per-...-i - This letter is used as part of the opening of the circumfix: member-...-kan, member-...-i (combine with Beringin Affix Men); diper-...-kan, diper-...-i (combine with Beringin Affix Di)
U+EBC7	ϣ	<p>BERINGIN AFFIX KE</p> <ul style="list-style-type: none"> - This letter is used for the prefix: ke- - This letter is used as the opening of the circumfix ke-...-an

Codepoint	Character	Name and Description
U+EBC8	ᮀ	BERINGIN AFFIX AN - This letter is used for the suffix: -an - This letter is used as the closing of the circumfix pe-...-an, pem-...-an, pen-...-an, peng-...-an, peny-...-an, pel-...-an, se-...-an, be-...-an, ber-...-an, bel-...-an, per-...-an, ke-...-an
U+EBC9	ᮁ	BERINGIN AFFIX KAN - This letter is used for the suffix: -kan - This letter is used as the closing of the circumfix me-...-kan, mem-...-kan, men-...-kan, meng-...-kan, meny-...-kan, memper-...-kan, di-...-kan, diper-...-kan, be-...-kan, ber-...-kan, bel-...-kan, ter-...-kan, per-...-kan
U+EBCA	ᮂ	BERINGIN AFFIX KAH - This letter is used for the suffix: -kah
U+EBCB	ᮃ	BERINGIN AFFIX LAH - This letter is used for the suffix: -lah
U+EBCC	ᮄ	BERINGIN AFFIX NYA - This letter is used for the suffix: -nya

Some of the affixes in Indonesian and Malay are spelt as is and will not have dedicated letter:

- Suffix -i will use Beringin Vowel I
- Closing of the circumfix me-...-i, mem-...-i, men-...-i, meng-...-i, meny-...-i, memper-...-i, di-...-i, diper-...-i, per-...-i will all use Beringin Vowel I
- Infix -el-, -em-, -er-, will be spelt as is because it is now considered as part of the word that got affixed instead of real affixes
- Other affixes will be spelt in full, this includes the prefix maha-, pasca-, pra-, eka-, bi-, dwi, anti-, pro-, tata-, juru- and others
